Project brief - Zero Emission Coffee Transport

1. Project details

Project:	Zero Emission Coffee Transport
Place:	Antwerp - Belgium, Leek - Netherlands
Short description:	**Dorothy's Coffee** imports green coffee from Tanzania, East-Africa. In 2022 it would like to transport the last track of its green coffee with zero emission. This is the track from the warehouse in Antwerp (Belgium) to the roasting facility in Leek (Netherlands).
Managed by:	Dorothy's Coffee (under the umbrela of FRESH Services)
Address:	De Schelp 18 9351 NV Leek The Netherlands
Contact person:	Mr. Harro Boekhold
Mobile phone:	+31(0)6 54 14 03 12
Telephone:	+31(0)6 12 78 49 76
E-mail:	dorothy@dorothyscoffee.nl
Website:	www.dorothyscoffee.nl

2. Project summary

Dorothy's Coffee imports green coffee from Kilimanjaro, Tanzania (East-Africa). The coffee is shipped from Dar es Salaam (Tanzania) to Antwerp (Belgium). From the warehouse in Antwerp the green coffee is transported by truck to our roasting facility in Leek, Groningen (Netherlands). The ambition of **Dorothy's Coffee** is to be a circular and sustainable coffee company by the end of 2023. Zero emission transport is part of this ambition. As a start, we would like to transport our coffee with zero emission from Antwerp to Leek. Part of this journey is done by sailing ship. For the remaining parts other means of zero emission transport will be used.

3. Additional information

Company profile:	In 2019 we started our social enterprise: **Dorothy's Coffee**. We import, roast, package and sell coffee from small-scale coffee plantations on Mount Kilimanjaro in Tanzania. With **Dorothy's Coffee** we want to contribute to the improvement of the economic, social and environmental conditions of coffee farmers and their families. We also want to work on a positive impact in our own environment in the Netherlands and. Last but not least, to make the entire chain of export, import and transport more sustainable. By the end of 2023, we want to be an acknowledged sustainable circular coffee brand.
